Raptor

The Raptor energisers have been designed to offer the highest level of flexibility, quality and simplicity of operation. Raptor will operate from 12v external battery, 230v AC adaptor and from an internal 6v spring top battery. Our innovative three colour rotating LED relays information on the health of your fence system at a glance. All of these features are housed in a ABS case of unrivalled strength. Raptor is available in 0.8 and 1.7 stored joule options.

- 6v internal battery input*
- 12v external battery power input
- 230v mains input (via adaptor)
- Three colour fence performance monitor
- Low battery indicator
- Robust, heavy duty ABS case
- Galvanised steel stand
- Weatherproof switch

Internal 6v battery back up

In addition to 12v external battery and 230v mains adaptor input, Raptor will operate from an internally loaded 6v spring top (PJ996) battery. The standard capacity battery, commonly used in domestic torches, is widely available in most supermarkets so offers an easily accessible emergency power source. The battery can operate as a reserve back up when charging your 12v battery or when unable to check your 12v battery status. When operating from the AC adaptor the 6v internal battery will serve as an emergency battery back up. Our high capacity version (see page 11) will operate as primary power source on the lower power models and give greater longevity in a back up situation.

THE GAME FARMERS' ASSOCIATION

Thank you

The Game Farmers Association would like to thank all its Members and Trade Members for their loyal support.

Without it, we would not have been able to provide the umbrella of protection that the game-farming world relies upon.

In the last few years, you have helped us to:

- Keep members abreast of GL43 developments.
- Protect the Game Sectors interests throughout Avian Influenza outbreaks.
- Join the fight against Wild Justice's legal challenge to Gamebird Releasing.
- Help fund research into Gamebird Diseases and Welfare improvements.
- Slash Antibiotic use in the Gamebird Sector by over 60%.
- Liaise with DEFRA to minimize the impact of any new requirements for releasing Gamebirds.

And defend you against many other threats you probably didn't even know you faced.

If you are not a member and you want to help us to help you, please go to www.gfa.org.uk to join.
